

Existing Account Remedy

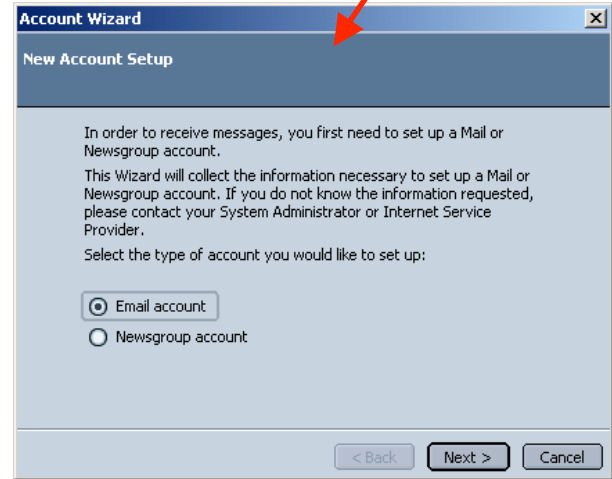

If upon opening the mail application, you find that an account already exists (that is not yours), you can create a new account by following the steps below. If you would like to remove this account, continue to the next page...

Rogue account not belonging to you

To create a new account, select "Account..." from the "New" menu within the "File" menu

The new account setup wizard will then open and you can continue through the Mozilla Email Cheat Sheet

Account Wizard

New Account Setup

In order to receive messages, you first need to set up a Mail or Newsgroup account.

This Wizard will collect the information necessary to set up a Mail or Newsgroup account. If you do not know the information requested, please contact your System Administrator or Internet Service Provider.

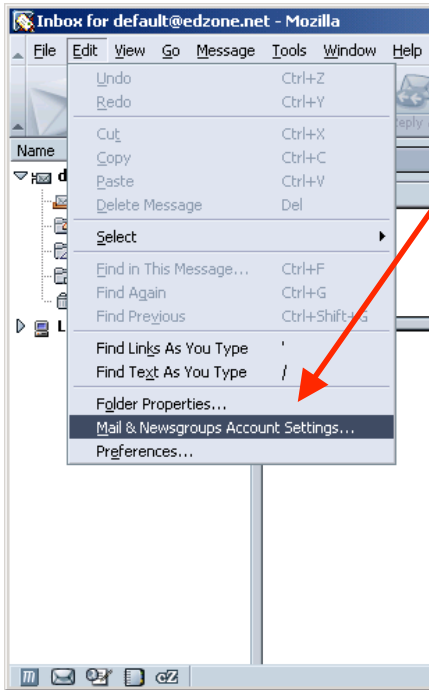

Select the type of account you would like to set up:

Email account

Newsgroup account

< Back Next > Cancel

To delete an existing account, follow the instructions below...

First select the "Mail & Newsgroups Account Settings..." option from the edit menu within the mail application

Next select the account that you would like to delete

Then press the "Remove Account" button

You will then receive a dialog box. Press the "OK" button to delete the account if you're sure. (if you receive an error message, that it cannot delete an account, it is just a warning concerning the local folders and can be ignored)
